

Police Activity in Round Rock West Subdivision, November 2009 - April 2010

NOTES

This map shows the area included in the analysis. All of Flintrock, Tejas, and Wood Rock drives are captured within this analysis, but only the 300-600 blocks of Lake Creek Dr. are captured. Also, the 2000 block of Creekview Dr., 2700 block of Deep Wood Dr., and 1400 block of Oakridge Dr. are included, though only portions of these blocks are within the subdivision. The study area is delineated in this way due to limitations in the data structure.

The data source for this analysis is the Police Department's Computer-Aided Dispatch (CAD) database. That means the data are drawn from the information police dispatchers enter into the computer as calls occur. The primary limitation of these data is that they may not reflect the actual nature of a call or its true final disposition. Thus, some care should be exercised in interpreting the results presented here. Traffic stops and animal-related calls are excluded from this analysis.

Any questions regarding the results of this analysis, the data source, or the preparation of this report should be directed to:

Call dispositions are organized into the following categories: Arrest Made, Cancelled/False Alarm, No Report, Report Taken, Referred (to Other Agency), Unable to Locate, and Warning or Ticket Issued. If a category does not appear in the table above, then no calls resulted in that disposition category during the period in question.
